

Jefferson Cocke County Utility District Marketing Plan
(July 1, 2008 through June 30, 2019)
Revised effective July 01, 2016

- A) Identify commercial and home development before construction has begun (or as early as possible) Action: **Assign a JCCUD Employee to identify development**
- B) Share the benefits of natural gas and propane at construction site. Also inform customer of incentives that are available. Action: **Assign a JCCUD employee to make site visit**
- C) Appliance rebates have been offered in the late winter and early spring months to pull installation away from the busy fall light up season. In recent years the demand on JCCUD installation and service crews has been reduced. Action: **Rebates should be offered 12 months per year to encourage year round usage.**
- D) New residential and remodeling construction should encourage year round appliance usage such as dryers, hot water heaters, etc. Action: **Offer rebates and waive service application fee if two or more year round appliance are installed**
- E) Enhance JCCUD's relationship with Heating and Air contractors. Action: **Develop a qualified contractors list (Need to develop standards for them to qualify to be on the list such as requiring the contractor to carry \$1,000,000 in liability insurance)**
- F) Encourage installation of Gas furnaces: Action: **offer homeowners a rebate for installation of a gas furnace (\$150) (Not dual fuel) (Both New Construction and Change outs)**
- G) Encourage installation of Gas furnaces: Action: **offer heating and air contractor a rebate of \$250 for installation of a gas furnace on JCCUD's distribution system. (Contractor can earn a \$50.00 bonus per installation if JCCUD employee's site visit to approve installation does not result in additional inspection trips for reinspection.) (Both New Construction and Change-outs) Maximum rebate per home to contractor equals \$300.**
- H) Encourage Heating and Air advertising gas furnaces: Action: **If contractor installs 8 gas furnaces on JCCUD's distribution system in a six month period JCCUD will pay contractor up to \$500 for reimbursement of advertising expense (Must be local ad for natural gas or propane units specifically.) Copy of advertising invoice must be submitted identifying natural gas and /or propane furnace units only. Disbursement eligible to be repeated upon the installation of 8 additional units within a six months period.**
- I) Assist local Heating & A/C dealers with gas furnace sales: Action: **Develop plan to offer financing through local banks to finance gas furnaces for local heating and A/C dealers**
- J) Encourage installation of Gas Year round Appliances: Action: **offer Contractors a rebate of \$100 for installation of a gas range, dryer or hot water heater on JCCUD's distribution system. (Contractor can earn a \$50.00 bonus per Unit installation if JCCUD employee's site visit to approve installation does not result in additional inspection trips for reinspection.) (Both New Construction and Change-outs) Maximum rebate per home for year round appliances to contractor equals \$500.**

Jefferson Cocke Utility District

Please note changes effective August 1, 2008

- 1) Tennessee Mechanical Contractor's License requirement removed since local HVAC dealers are not required to have license.

Please note clarification:

- 1) Customers that have more than one gas furnace (not dual fuel) will be paid \$50.00 for each additional gas furnace (not dual fuel) installed.

Please note changes effective July 1, 2011

- 1) Special \$1,000 Rebate program (switching from electric to gas, both electric furnace and electric hot water heater to gas) is eliminated. Regular appliance rebates apply.
- 2) Reduces rebate for installation of a gas furnace to a home owner from \$300 to \$150

Installations in progress but completed after July 01, 2011 will be eligible for the rebate program in effect prior to July 01, 2011

Please note changes effective July 1, 2013

No Changes

Please note changes effective July 1, 2016

Contractor Rebates for year round gas appliances installed on JCCUD's Distribution System added. Appliances available for the rebate include Gas Dryers, Gas Ranges and Gas Hot Water Heaters.
